

# Hyatt Place Hotel Heathrow

New Hyatt Place 4\* Hotel

Two blinds to every bedroom window

Project		Solution	
<p>This 4 star, 170 bedroom hotel was created from an unprepossessing derelict 1960s office block.</p> <p>This is the first Hyatt Place Hotel in the UK and the nature of any airport hotel requires an efficient room darkening blind system.</p> <p>Complete with meeting and function facilities and providing catering 24 hours a day there was also a requirement for shading and light control in other spaces of the hotel.</p>		<p>Dearnleys supplied and installed two blinds to every bedroom. Astralux 3000 roller blinds fitted with a screen fabric filtered the light and Astralux 4000 room darkening blinds provided effectively controlled light levels for sleeping.</p> <p>Astralux 3000 roller blinds were installed to the dining areas.</p> <p>In the meeting rooms manually operated and motorised Astralux roller blinds were also provided.</p>	
Benefits		Details	
<ul style="list-style-type: none"> <li>• Effective dim-out of bedrooms</li> <li>• Effective screening of light</li> <li>• Proven roller blind system with simple chain operation fitted with child safety tensioners</li> <li>• Flame retardant materials</li> <li>• Very durable solutions</li> </ul>		<p>Products:</p>	<p>Astralux <a href="#">3000</a> roller blinds - approx. 200 nbr</p> <p>Astralux <a href="#">4000</a> roller blinds - approx. 200 nbr</p> <p>All blinds fitted with flame retardant fabrics</p> <p>All manual blinds fitted with child safety chain tensioners</p> <p>Motorised blinds operated by radio control switches</p>
