

# Performance Academy, Pontefract

New build £2m facility

Electric tracks, curtains and backdrops

[See video](#)

Project		Solution	
<p>This state-of-the art performing arts academy is part of New College in Pontefract.</p> <p>The specification called for stage tracking and curtains to the main performance area. In addition other tracks and curtains were required along with a backdrop.</p> <p>Dearnleys worked with the builders on this design and build project to help with the specification of the tracks and curtains.</p>		<p>Dearnleys proposed the Silent Gliss 5300 electric curtain tracks on which they hung Accolade black, flame retardant, full height curtains.</p> <p>To the sides of the stage curved, manual tracks were shaped and installed. These were hung with the same curtain spec as the main stage curtains.</p> <p>The backdrop was made using extra wide, white, flame retardant cotton to create a seamless finish.</p>	
Benefits		Details	
<ul style="list-style-type: none"> <li>• Simple and professional operation of main curtains via motorised tracks</li> <li>• Co-ordinated finish to other stage areas</li> <li>• Chain weights to improve look and operation of the curtains</li> <li>• Flame retardant materials to comply with client requirements</li> <li>• Low maintenance solutions</li> </ul>		<p>Products:</p> <p>Silent Gliss 5300 curtain track</p> <p>Electric operation by wired switch</p> <p>Silent Gliss 6100 track</p> <p>Curtains and backdrop</p> <p>Architect: Britcon</p> <p>Contractor: Britcon</p>
