

St Luke's School Swindon

External venetians to 2 floors

Accurate light control

Project		Solution	
<p>St Luke's in Swindon is a SEN school and the requirement was for a shading system to reduce heat gain and control light and glare.</p> <p>To prevent the pupils interfering with the blinds an external solution was proposed by Dearnleys.</p> <p>As the blinds were fitted externally they required motorisation and Dearnleys liaised with the electrical contractor to ensure the correct electrical feeds were provided.</p>		<p>Dearnleys supplied and installed Astralux 8000 venetian blinds to the top two floor of the school.</p> <p>The blinds are fitted with guide wires to prevent excessive movement in windy conditions.</p> <p>Radio controlled handset operation allows each teacher to independently operate their classroom blinds to accurately control light and glare and reduce heat gain.</p>	
Benefits		Details	
<ul style="list-style-type: none"> • Very effective control of glare and solar gain • Guide wires to prevent blinds moving in the wind • Weatherproof headbox to conceal the blind when retracted • External and motorised operation prevents unauthorised use • Robust and durable solution 		<p>Products:</p>	<p>Astralux 8000 external venetian blinds</p> <p>24 nbr fitted with guide wires</p> <p>Radio controlled operation</p>
